

CallPilot Voice Mail System - CP100 or CP150

Changing CallPilot Voice Mail's Password back to Default

(Perform Procedure when Locked Out of System Administrator Programming)

Programming must be performed on a M7310 or T7316 Telephone Set, Layout as follows:

Press

or FEATURE key

Enter (from dial pad)

985-9, 73738 76 7793

Resets to Default Password: 1020000# -- if 3 digit extension numbers, or 120000# -- if 2 digit extension numbers

One must know the CallPilot's Voice Mail Password in order to make any programming changes; such as, Add/Delete Mailboxes, Changing a Name, etc.

Press

To end.
